

Sandberg SoundExperience 2.0

The Sandberg SoundExperience 2.0 is an attractive amplified speaker set in a stylish flat panel design, saving you desktop space and enhancing your computer environment. Setting up the speakers only takes a minute – simply connect them to your computer's audio output and a mains socket. On the front of one of the speakers you will find the volume control and a headphone socket. The connector for the speaker set is a Minijack which also fits other sound devices such as an MP3 player or DiscMan.
