

## Sandberg Play Speaker Set 2.1 EU

The Sandberg Play Speaker Set 2.1 is a speaker set with built-in amplifier. The subwoofer with adjustable bass comes in a solid wood housing and two elegant flat panel speakers produce pure treble. The speaker set is perfect for use with a computer, but can also be used for other audio sources such as MP3 players and TVs. The set offers a unique simplicity and quick installation as well as a user-friendly volume control with blue backlight on the front of the subwoofer.
