

Sandberg HeadSet

The Sandberg HeadSet gives you crystal clear sound recording combined with faithful sound reproduction. You can use this for Internet telephony or for talking to other players during network gaming. You get a speaker for each ear that produces excellent sound and ensures a superb sound experience without disturbing others around you. The speakers are discretely connected via a comfortable headband. The set is equipped with a microphone on a fully adjustable, flexible arm. It also features an inline volume control and belt clip.
