

Sandberg Laptop AC Adapter 90W

The Sandberg Laptop AC Adapter is an inexpensive alternative to an original power supply and you won't notice any difference in performance. This is the perfect opportunity to get an extra power supply, e.g. for work or study purposes, or to replace the original if you've lost it. The power supply can be set to 15, 16, 18, 19, 20, 22 or 24 volts, so it's suitable for most laptops. The connector from the power supply can be adapted to fit your laptop by swapping it with one of the many connector types enclosed. It is also possible to charge other devices via the built-in USB port. English user guide.

Supports all common Dell, IBM, Lenovo, Asus, HP, Acer, Fujitsu, NEC, Toshiba, Sony, Hitachi and many other laptops
 Rated input voltage (50-60 Hz): AC 110 V - AC 260 V
 Input related current: 1.8 A
 Input power: 150 VA
 Output power (max.): 90 W
 Efficiency: >80% (TYP)
 Output voltage DC 15/16/18/19/20/22 or 24 volts
 Output current at DC 15-20 V max 4.5 A (no USB output)
 Output current at DC 22-24 V max 3.75 A (no USB output)
 USB Port: 5V 2A
 Line regulation: +/- 5% Load regulation: +/- 5%
 Total cable length: 2.30 metres
 Built-in overload protection
 Built-in short circuit protection
