

Sandberg Pocket Powerbank 5000

Sandberg Pocket Powerbank 5000 is a portable battery which is charged via a USB port and can then transfer the power to a mobile phone or other mobile device. With a fully charged Powerbank in your bags, you can ensure that you will always be able to charge your devices anywhere anytime – without having to depend on a power socket. Look forward to a future without dead batteries!

Norterrhn Reviewer says:

"The Sandberg Pocket Powerbank 5000 is a shining example of how to create a budget-friendly power bank that offers most phones at least one full charge, while still being pocket-friendly in other ways, such as the fact that it fits perfectly in a pocket. Its sleek iPod like design is stunning and certainly sets it aside from similar products."
