

Sandberg Bluetooth Link for iPhone Dock

Now you can upgrade your speaker dock, so you don't need to leave your iPod/iPhone in the docking station in the speaker. Simply plug the Sandberg Bluetooth Link for iPhone Dock in the speaker instead of your iPhone, and you can keep the mobile in your pocket and send music wirelessly to the speaker. In addition to that, your speaker can now be used for other devices such as Android mobile phones, PC, Playstation 3 or any other Bluetooth audio device.
