

iConheli is a cool, radio-controlled helicopter, which can be controlled from your iPhone, iPod Touch or iPad. Simply get the free iConheli App from the App Store, connect the helicopter via Bluetooth and you're flying! The built-in rechargeable battery can be charged from a USB port using the cable supplied.

Gadget Gear says:

"This is the first Bluetooth helicopter I test, with which I am pleased with the core quality of the product.

"
